FOR IMMEDIATE RELEASE

BUREAUCRACY WINS BEST DRAMA PICTURE AWARD AT BARE BONES FILM FESTIVAL

Muskogee, OK - April 26, 2009, Proactive Pictures LLC's new feature film "Bureaucracy" wins the "Best Drama Picture" award at the 10th Annual Bare Bones International Film Festival. The award was presented during the festival's closing ceremonies inside the historic Roxy Theatre, in front of a packed house which included such notable guests as Lollipop Munchkin Jerry Maren ("The Wizard of Oz") and youngest American mayor John Tyler Hammons.

Also among the crowd of filmmakers, dancers, musicians, comedians, and entertainers was "Bureaucracy" star Jack Robinson, who was nominated for the "Best Actor" award at the festival. He, and "Bureaucracy" filmmakers Mark and Andrew Perreault, shared their filmmaking experience with the media (including the Jerry Pippin Show and the Fun Country Morning Show with Cliff Casteel and Katey Sherrik on Okie Country 101.7) and community in interviews, panel discussions, and a Q & A after the film's premiere in the Roxy Theatre on Friday night.

"Bureaucracy" played along with over a hundred films at the Bare Bones International Film Festival, and if you're not familiar with the 10-day event, it's time you should be. Bare Bones was recently listed alongside with Sundance, Ann Arbor, and Mill Valley as one of the top 20 film festivals for first-time filmmakers (MovieMaker Magazine #77). Known as "the world's friendliest film festival" and "the place to meet the stars of tomorrow," Bare Bones is held in Muskogee, Oklahoma, former home to "Brady Bunch" dad Robert Reed and Hollywood legend Clu Gulager. The latter was recently honored by the festival, along with filmmaker Robert Rodriguez.

More about the Bare Bones International Film Festival:

The Bare Bones Film Festival was founded in October of 1999 in order to provide a platform from which to showcase low-budget (less than one million dollars) independent movies with a focus on championing the Bare Bones Auteur (a multi-tasking visionary who assumes responsibility for creative and business aspects) locally, regionally and internationally. The founders, Oscar and Shironbutterfly Ray, are both independent filmmakers who understand the need for support, encouragement and recognition in the fast-growing indie film industry. The festival has been attended by filmmakers, screenwriters, crew, actors, producers, distributors, and film buffs from as far away as England, Mexico and Canada, along with most U.S. cities.
